M-PESA PAYBILL SYSTEM UPGRADE

**Your Guide to M-PESA Paybill: Setup, Usage,
and Management.**

User Guide

BACKGROUND

This is a cash collection service that **allows your organization to collect money on a regular basis** from your customers through M-PESA. The paying customers will be **assigned a uniquely identifying account number** by your organization to help with automatic funds allocation and reconciliations.

The solution also allows you access to different channels to manage your funds and get real time reports for transactions made on your Paybill account at no extra cost.

Channels of Access

- USSD *234# > Merchant Services
- M-PESA Web Portal
- M-PESA Business App
- M-PESA Integration

New application can be made online via <https://m-pesaforbusiness.co.ke/>

WHY M-PESA SYSTEM UPGRADE?

Enhanced User Experience: The New Portal Has Been Designed To Keep Up With Industry Trends, For Better User Experience And More Efficient Value Creation.

Greater Operational Efficiency: Currently, The System Can Process A Maximum Of 4,500 Transactions Per Second. Fintech 2.0 Will Be Able To Process Up To 12,000 Transactions Per Second.

Reducing The Impact Of System Downtime: Minimizing Service Interruptions And Improving Reliability For Users.

Improved Scalability: Supports Growth And New Product Development.

Stronger Security And Compliance :Modern Frameworks To Reduce Risk.

Seamless Integration :Easy Connection With Apis and Third-party Services.

M-PESA web transactions operate under a maker-checker principle.

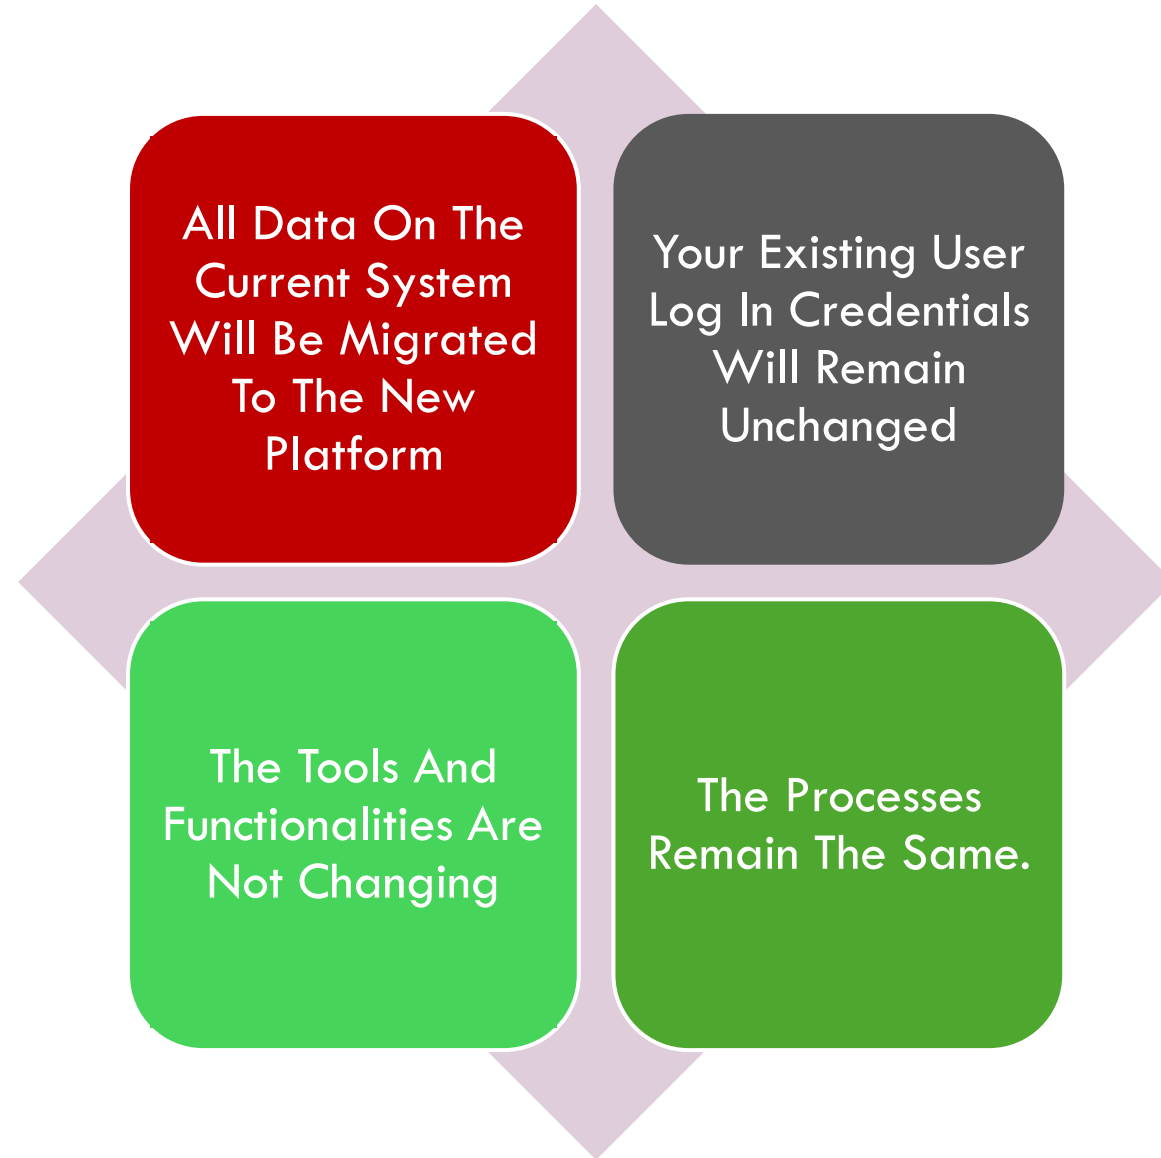

This means that for each web transaction, there must be at least two individuals necessary for its completion.

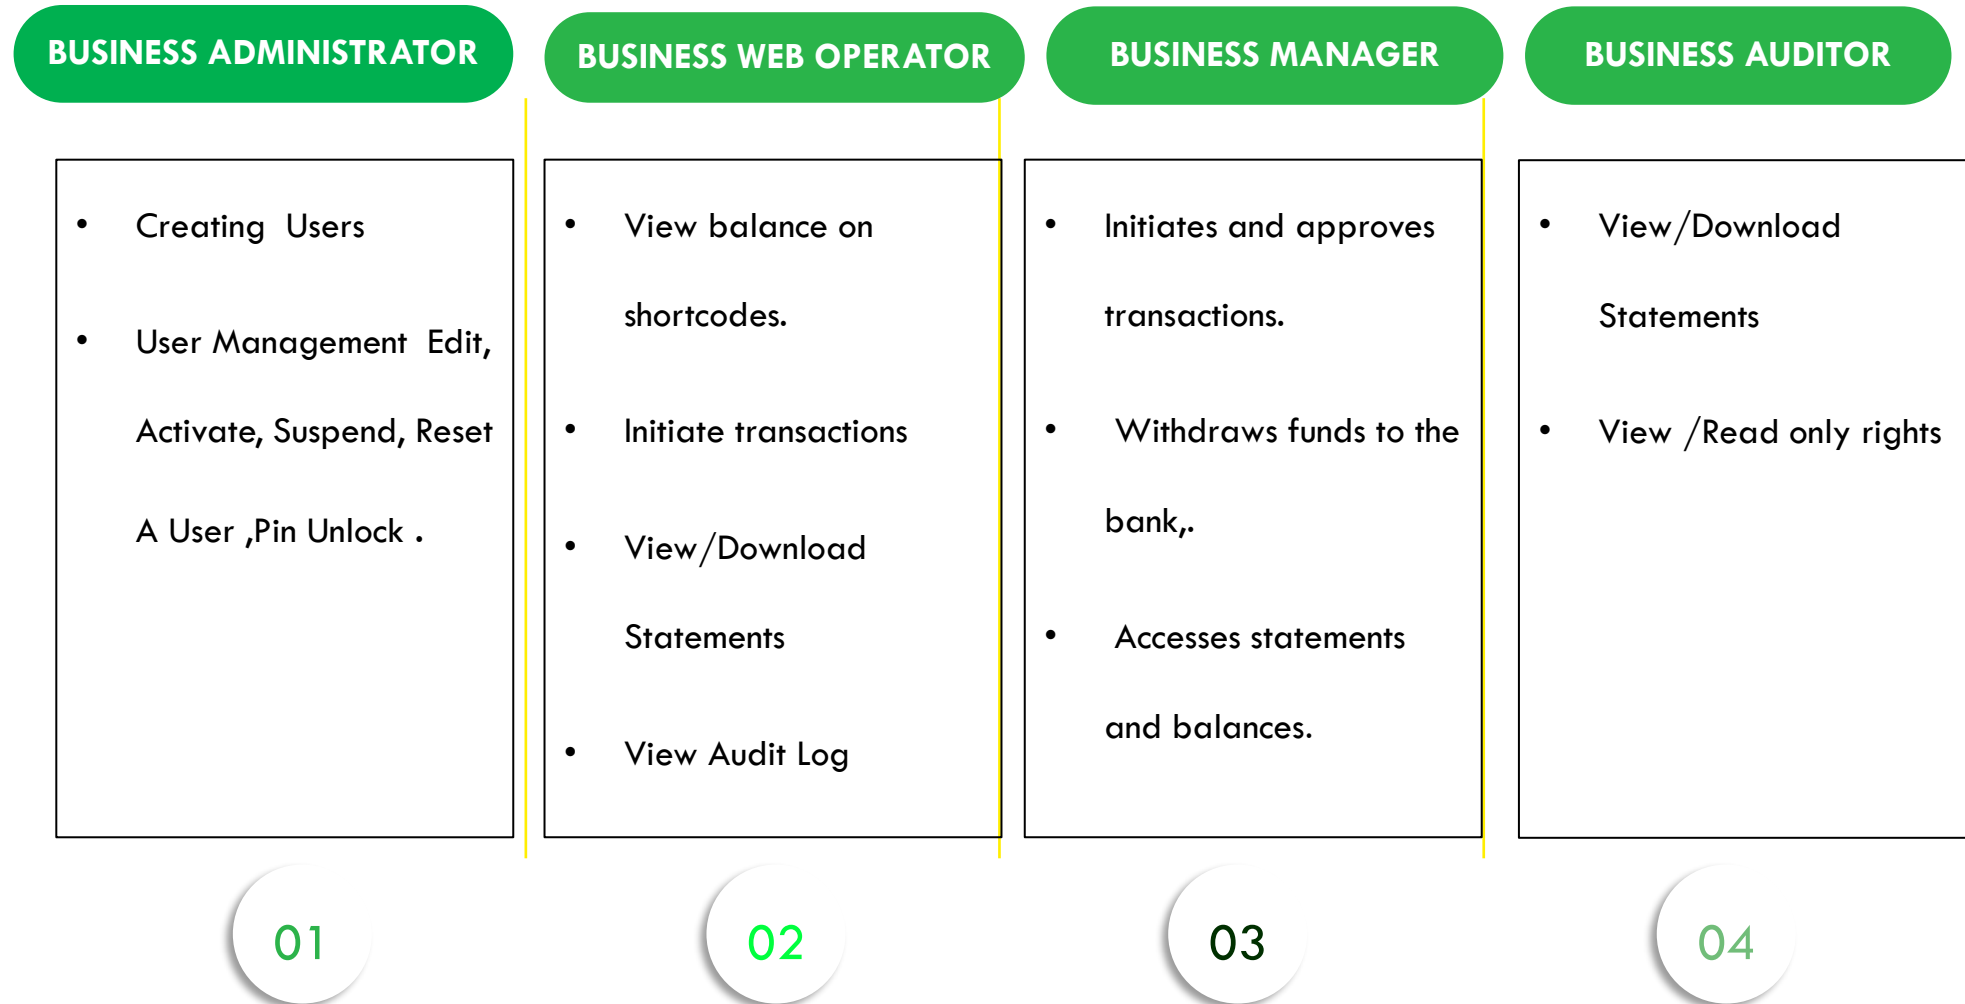

One individual initiates a transaction, the other individual is involved in confirmation/Approving the transaction.

What Is Not Changing ?

PREDEFINED USER ROLES | **NOT CHANGING**

The **M-PESA C2B portal** supports multiple user roles to ensure secure and efficient management of business-to-customer payments. These roles help control access levels and define what each user can do on the platform.

TROUBLE SHOOTING TIPS

ISSUE	CAUSE	RESOLUTION
Organization administrators who are unable to log in	Administrator account is dormant	Administrator to apply for account activation and password reset
	Administrator exited	Apply for closure of old account and add new administrator. (Fill change of administrator form.)

AGGREGATED STATEMENTS

Aggregated Paybills are those where there are several Paybill store numbers consolidated **under one Head Office Paybill number**.

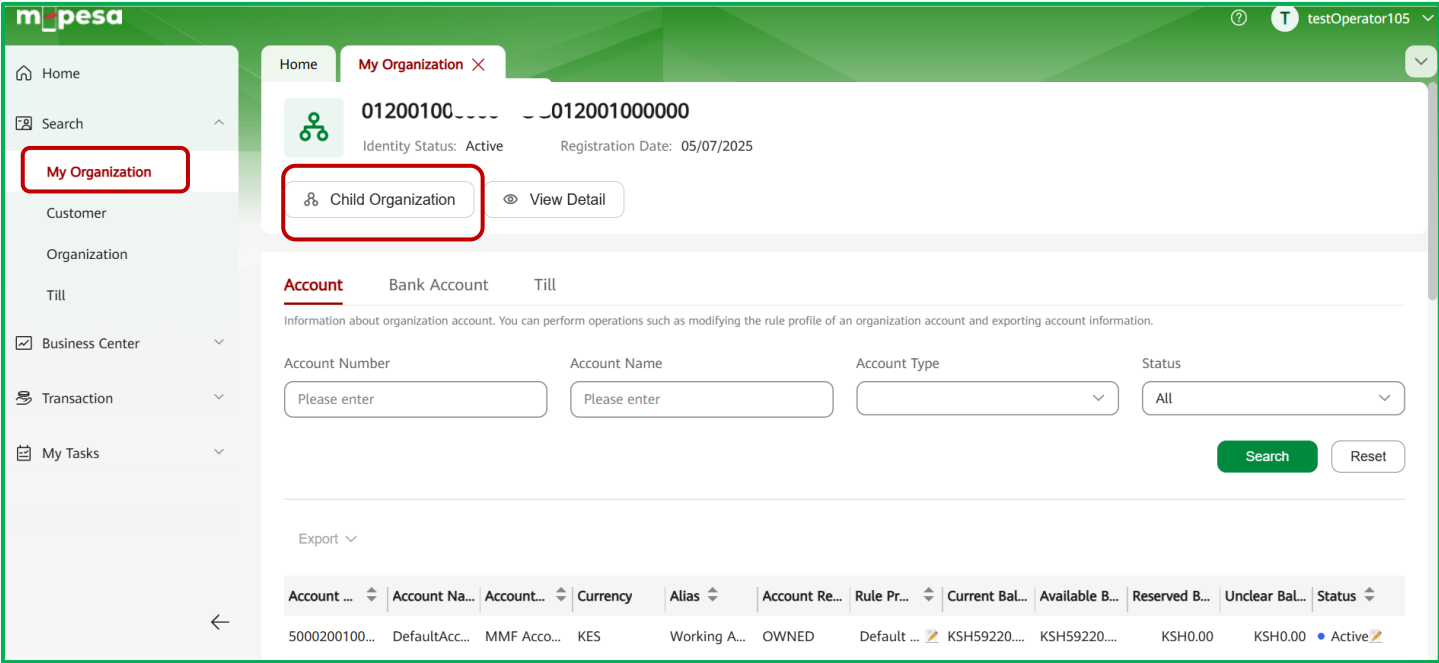

This makes fund management easier as the user will not be required to maintain several log in credentials for each.

For aggregation to be done, all the Paybill stores must be linked to one bank account, which must also be the same one the Head Office Paybill is linked to. The customer transactions and statements are however found at the Store level where the transaction happens, and not the Head Office
